PROFILE

Versatile Data Analyst leveraging SQL, Python, and Power BI to drive business-centric insights. Proven ability to adapt across diverse domains, from Finance to Logistics, with a fast learning curve. Focused on delivering tailored, data-driven solutions that solve complex operational challenges.

PROFESSIONAL EXPERIENCE

Data analyst (Intern)

Dec 2024 – Feb 2025

TechnoHacksEduTech

Remote

- Developed hands-on expertise in data cleaning, statistical analysis, and interactive dashboard development using Excel, Power BI, and Python.
- Built and delivered multiple data visualization projects, applying ETL techniques and summary statistics to transform raw data into actionable insights.

Data Analyst Intern

Aug 2024 – Sep 2024

NeurontiX

Cairo, Egypt

- Analyzed HR and Employee datasets using SQL (DDL, DML, DQL) to extract workforce insights and support data-driven decision-making.
- Performed exploratory data analysis on a Diabetes healthcare dataset, identifying key risk indicators and patterns across patient records.
- Applied data cleaning and transformation techniques across 3 end-to-end projects covering HR, workforce, and healthcare domains.

PROJECTS

Inventory & Supply Chain Performance Dashboard | Power BI 🔗

Apr 2026 – Apr 2026

Developed an end-to-end Power BI dashboard to optimize supply chain efficiency and warehouse operations.

Engineered advanced DAX metrics (DSI, Turnover Ratio, Utilization) and visualized logistics costs to identify saving opportunities.

Streamlined data workflows using Power Query to analyze inventory levels, backorder statuses, and lead time trends.

Strategic Analysis Of Loan Profitability 🔗

Mar 2026 – Mar 2026

Developed an interactive Power BI dashboard to analyze a \$237M loan portfolio, identifying an 8.33% default rate as a key profit impact factor.

Provided strategic recommendations for portfolio diversification and regional expansion to optimize ROI, with a data model compatible with ERP systems like Dynamics 365.

Global Health Data Analytics 🔗

Apr 2025 – May 2025

Analyzed a dataset covering 204 countries over 30 years, processing 1.46 billion death records to identify global mortality trends. Found Cardiovascular diseases, Neoplasms, and Chronic Respiratory diseases as the leading causes of death, with China, India, and the USA showing the highest mortality volumes..

SKILLS

Microsoft Excel

ETL , Cleaning ,Data Modeling,Power Query, and Visualization.

Microsoft Power BI

ETL ,Cleaning ,Data Modeling ,Power Query ,Reporting, and Visualization.

Statistics and probability

Python

Pandas , Numpy , Matplotlib , Seaborn ,Data Wrangling ,and Visualization.

SQL

DDL , DML ,DQL , DCL ,TCL.

Problem Solving , C++ ,DBMS ,Data Mining.

EDUCATION

Bachelor of Computer Science

Sep 2019 – Jun 2024

Faculty of Computer and Artificial Intelligence (BFCAI).

- Benha University.
- Information systems department.
